

BASE MAP IS FT. LEWIS SPECIAL ED 4 SERIES V791S

TE-05-013

LEGEND

MAP INFORMATION AS OF 1990

ROADS

- Divided highway with median strip
- Freeway, limited access
- 2-lane, limited access
- 2-lane, no median
- 2-lane, no median, no center turn lane
- Light duty, no median, less than 4-lane
- Full or dry concrete, undivided 2-lane
- Trail

Water

- Marina, Intracoastal, Federal, State

Bridge

- Various types

AIRWAYS (Standard gauge 144m - 475m)

- Ship track
- Military track
- Nonmilitary

National airport (Large, Small)

- Coast or beach

Railroad

- Various types

Tunnel (Highway, Railroad)

LANDMARKS

- Various locations

Major, non-motorway

- Various locations

Scale: 0 to 10 miles

SCALE 1:50000

ENVIRONMENTAL/TRAINING NOTES:

1. Ft. Lewis Regulation 200-1 (FL Reg. 200-1) implements the requirements of federal, state, regional and local environmental laws and regulations. Reference to this regulation is a requirement for all users of Fort Lewis and its sub-installations, especially for field training and motor pool operations.

2. Report spills to the Ft. Lewis Fire Department (253) 967-5859 or to Range Control. The appropriate spill response team will be contacted for assistance.

4. Maintain a 100 meter minimum distance from lakes, streams and wetlands for the following activities:
 - a. refueling activities,
 - b. assembly areas,
 - c. field latrines and soakage pits,
 - d. field showers and kitchen sumps,
 - e. hazardous material storage areas.

5. Maintain a 50 meter minimum distance from lakes, streams and wetlands during off-road movement or the siting of vehicle positions (i.e. defilade, hull downs)

6. All Range/training complex use requires check-in and check-out at Range Control, Building 4074.

PRODUCED BY THE PW-ENRD FORT LEWIS, WASHINGTON; MARCH 2001 (TH-ECM02.AP)

	APPROVED TRACKED VEHICLE CROSSING/DO NOT BLOCK TRAFFIC

	WETLAND - NO OFF-ROAD VEHICLE MANUEVER/NO DIG
	NO DIG
	NO TRACKED-VEHICLE MANUEVER/NO DIG/NO BIVOUAC
	SEASONAL CONSTRAINTS-COORDINATE W/ PW-ENRD

Fort Lewis

Environmental Leader & Soldier Card

Fort Lewis provides 76,375 acres of training and impact area for year-round military training and recreation. Soldiers and recreationists must use training areas, sites, and ranges in a safe and environmentally responsible manner to conserve Fort Lewis as a training resource now and into the future. Everyone must ensure compliance with safety, environmental, and natural and cultural resource policies and regulations from the Departments of Defense and Army, Fort Lewis, and Federal, State, and local regulators.

BE ALERT * * STAY AWARE

Use of Training Areas

- Use camouflage netting instead of live vegetation. Dead vegetation gives away your position.
- Get dig pits from Public Works before digging.
- Stay on established roads within 50 meters of all bodies of water.
- Properly back-fill and smooth all excavation/holes. Restore the disturbed area to a natural condition.
- Police your training area before you leave. Remove all tactical wire, commo wire, ammo residue, brass, pellets, and litter after use. Properly dispose of all trash.
- Off-road vehicle movement is prohibited on Weir and Johnson Trails (Nevada and El Estero DZ's) in Training Area 21 and 22.
- Contact Range Control for burn ban status. Smoke training is not permitted during burn ban periods.
- Report all accidents and suspicious digging to Range Control.
- Request Medevacs from Range Control.

DO NOT HARASS, CAPTURE, TOUCH OR KILL WILDLIFE

Endangered Species

- It is a Federal offense to disturb any endangered species or its habitat.
- Follow FL Reg 420-5, Endangered Species Regulation.

Cultural/Archeological Resources

- Removal of cultural or archeological artifacts is a Federal offense.
- Ground disturbing activities are prohibited within Cultural Resource sites, which are Seibert (Siber) staked.
- Stop digging activity immediately if historic or prehistoric artifacts are found and report to Range Control.

KNOW WHAT IS GOING ON AROUND YOU AT ALL TIMES

Fire Prevention

- Outdoor Fire Hazard Season is from June through October. Avoid parking on dry, dead grass.
- Set and use designated smoking areas on ranges. Use roads, gravel pits, or areas free of flammable materials.
- Ensure that flame-producing pyrotechnics are not used on or near fuels that may start or feed a forest or range fire.
- If a range fire starts, contact Range Control and start fire-fighting. DO NOT endanger soldiers.
- Do not fight fires in the Artillery Impact Area

Fire Levels

- Level 1 - Pyrotechnics, troop fires & smoking authorized
- Level 2 - Pyrotechnics, troop fires & smoking allowed on roads, gravel, or other cleared surfaces (No Tracers)
- Level 3 - Pyrotechnics, troop fires & tracers Prohibited. Smoking allowed on roads, gravel, or specially prepared areas free of flammable materials

REMEMBER * * SPEED KILLS

Vehicle Movement

- Stay on established trails and roads.
- Avoid neutral steers and sharp turns.
- Use a ground guide in doubtful terrain, even in daylight.
- Cross streams at Authorized Ford Sites only.
- During off-road maneuvers, spread out. Try not to track the vehicle in front of you.
- Stay clear of off limit areas that are marked with signs or Seibert (Siber) Stakes.

Petroleum Products and Hazardous Materials

- Know and comply with your unit's spill contingency plan.
- Report spills to your higher HQ's, Range Control, and Ft Lewis Fire.
- Failure to report spills is a Federal offense, as is improper disposal of hazardous material.
- Turn-in all hazardous wastes to unit level collection points.
- Use designated refueling sites along with a drip pan and on-hand spill kit. Carry drip pans, drums, and dry absorbent for spills.
